

DISSIDENT & FRINGE 2.0

Dissident / Fringe / Sequel

Milliken™

Conventional ideology may identify those who challenge the status quo as a non-conformist; creators of dissidence and living on the fringe. Embodying a sense of irreverence pushes boundaries and allows us to explore how beauty can be created from that which seems uncommon and outside our boundaries, yet intriguing in a way that captivates our imagination.

Dissident and Fringe 2.0 explore layers of texture created from color and construction offering a balance of organic and architectural pattern options for the floor.

With a shared color palette influenced by materials such as stone and concrete, these two designs evolve the aesthetic for textural modular carpet.
