

An aerial, high-angle photograph of a ship's wake in the ocean. The water is a deep, dark blue, and the wake is a complex, swirling pattern of white foam and churning water that extends from the top right towards the bottom left. The texture of the water is highly detailed, showing the individual waves and the turbulent nature of the wake.

CARBON NEUTRAL PROGRAM

AIR BORN | A CARBON NEUTRAL COLLECTION

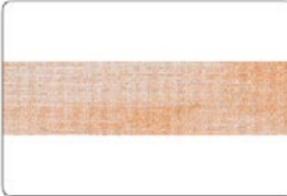

Climate change is one of the greatest threats facing humanity.

Today, our carpet, LVT and entryway tiles are carbon neutral everywhere in the world. We invite you to learn more about the significant changes we've made, then let's work together to design a better future.

Milliken.

SIMPLY SUSTAINABLE

Simply Sustainable by Milliken represents 150 years of our commitment to health and sustainability, distilled into a single, user-friendly score and rating system. By collaborating with **RESET**, we have developed a comprehensive rating system for our products, based on third-party certifications in the areas of carbon emissions, circularity, and health. With this information, our customers can make informed choices for their projects, knowing that they are selecting products that align with their values.
